The Annual CAVR Conference attracts professionals in the field of volunteer management from across the country. This conference provides an excellent opportunity for individuals and organizations to highlight developments and resources available to volunteer managers. Over 125 delegates are expected to attend.

15 workshops will be offered for delegates in professional development.

Workshops

These are 60 minute sessions that allow for in-depth presentations, an overview of an innovative program, policy, initiative, research finding or a demonstration and application of techniques and skills. Workshops are required to be interactive and to allow for discussion.
